# INTERNATIONAL JOURNAL OF DIAGNOSTICS AND RESEARCH

## **About Journal**

International Journal of Diagnostics and Research (**IJDR**) is an international, open access, peer-reviewed, online, quarterly official publication of 'Roganidana Vikrutivigyana PG Association For Pathology And Radiodiagnosis' ([www.rvpganagpur.com](http://www.rvpganagpur.com)). This journal is committed to publish science-based work emphasising on interdisciplinary diagnostics, treatment, and research in all branches of Ayurveda system of medicine, other allied indigenous health systems in India, modern medicine, pharmacology, public health along with contemporary natural and social sciences.

The journal carries a purpose to provide a scientific platform to scholars across the world who are keen to uphold the science of medicine in order to reinforce the mankind.

## **Journal Vision**

International Journal of Diagnostics and Research (IJDR) encourages interdisciplinary and cross disciplinary research in Ayurveda and other contemporary and traditional medical sciences to create a holistic, safe, operative and inclusive approach in healthcare system.

International Journal of Diagnostics and Research (IJDR) promotes the collaborative approaches in medicine and technology in relation to diagnostics, traditional, contemporary and new treatment protocols, diagnostic tools, drug design and public health. International Journal of Diagnostics and Research (IJDR) envisions protection and promotion of health on the basis of originality, authenticity, importance, timeliness and comprehensive research. International Journal of Diagnostics and Research (IJDR) envisions fruitful and effective communications between various stake holders of health care systems on a global platform.

The prominent features of our Visions are as follows :

To give prompt access of global publication to the scientists, researchers, academicians and students

To create awareness about the updates and opportunities in biomedical and clinical research.

To update the readers with latest diagnostic techniques, tools and software.

To meet the increasing demand of required medical information through the global publication of scientific works and discoveries

To establish rapid review process to accelerate the publication.

## **Aim of IJDR**

International Journal of Diagnostics and Research (**IJDR**) is to offer global platform for the scientists, students, academicians, and policy makers of the relevant fields to deliver evidence based health research and academic excellence in the form of an **original research article, review article, case reports etc.**

International Journal of Diagnostics and Research (IJDR) aims to disseminate scientific information to the global public and target readers through online platform to create smooth translational health information.

## **SCOPE OF IJDR**

International Journal of Diagnostics and Research (**IJDR**) welcomes interdisciplinary and cross disciplinary researches in the form of manuscripts related to:

Traditionally established and emerging Clinical Diagnostic tools, aids, protocols, parameters, criteria , technologies in Ayurveda and other traditional medicines, modern medicine, Ayurvedic and modern medical diagnosis, Traditionally established, standard, contemporary and new treatment protocols, Pharmacovigilance, drug standardization and development research in Ayurveda and other traditional medicines, modern medicine, Ayurvedic and modern medical treatment, Literary search, review manuscripts, experimental, observational, interventional and epidemiological and preventive researches related to fundamental principles of Ayurveda and modern medicine. Ayurvedic and modern medical researches related to the field of :

- Ayurvedic basic principles and Ashtang Ayurveda, Medical Astrology
- Biochemistry, Bio-physiology, Electrophysiology, Pathology, Radiology
- Yoga, Naturopathy, Toxicology, preventive social medicine, Psychology
- Promotion of research culture & Evidence based practice

## **Publication Ethics**

### **Publication Policy**

All manuscripts sent for publication to International Journal of Diagnostics and Research (IJDR) shall be scrutinized by the editorial board and send to evaluate by peer reviewers assigned by the editors. IJDR will publish a peer-reviewed manuscript once receive approval from review board and the editors. within 12 weeks of receipt. IJDR will give preference to original contribution that promotes novelty, authenticity and advancement in integrated diagnosis, treatment, biomedical research and which will enhance the knowledge base of the global target readers. The Journal conforms to the

guidelines of COPE (Committee on Publication Ethics) & ICMJE (International Committee of medical journal editors)

### **Open Access Policy**

International Journal of Diagnostics and Research (IJDR) ensures free online access of peer reviewed scholarly research literature without any restriction to anyone, anywhere interested in reading it. The reproduction of the contents is allowed if the author / editor is properly attributed.

### **Peer Review Policy**

International Journal of Diagnostics and Research (IJDR) ensures the quality and integrity of the manuscript before it is published online. The internal scrutiny is first made by the editors to ensure the scope and novelty of the manuscript lies within the scope of the journal. The independent external, experienced, knowledgeable, and skilled experts in the respective area of subject are appointed as reviewers by the editorial board examines the manuscript for its originality, validity. The manuscript is double blinded and mailed to the reviewers for the review process.
